

Search By Product Code

Please select Search By Product code in List of Values on Search tab then type our Product code in the Search space bar and click on search button

eg. 39192 (Product Code) For Methanol

The Result will show with all the pack codes, MSDS or Specification can be downloaded by clicking on MSDS /specs corresponding to each product code . (Please note, you have to register with us to avail this facility)

Search By Product Description

Please select Search By Product Description in List of Values on Search tab then type our Product Description in the Search space bar and click on search button

eg. Type Methanol

The Result will show with all the pack codes, MSDS or Specification can be downloaded by clicking on MSDS /specs corresponding to each product code . (Please note, you have to register with us to avail this facility)

Search By MSDS

Please select Search By Product code in List of Values on Search tab then type our Product code in the Search space bar and click on search button

eg. Type 39192 (Product Code)

The Result will show with all the pack codes, MSDS or Specification can be downloaded by clicking on MSDS /specs corresponding to each product code . (Please note, you have to register with us to avail this facility)

Search By COA By Product Code & Batch NO

Please select Search By COA in List of Values on Search tab and enter our **Product Code (without Pack code) followed by “/ ” then Batch No as per mentioned on**

the Product label (in the Search space bar) then, click on search button. Please note (Maximum 5 COAs can be downloaded at a time)

Eg. 20360/H02A/0402/1407/31

Product Code with out Pack code followed by / then Batch No as mentioned on the product label

The Result will show with Product code and Batch No. To download single Batch No, click on download you want download at right side of corresponding Batch no. And for download multiple Batch No(s), tick at the checkbox the left of corresponding Batch no(s) and click on Download all button. (Please note you have to register with us for avail this feature)
